**Matteo Bellotta**

*Scientific Researcher – IAFES Division at CMCC*

**Matteo Bellotta** is a scientific researcher of the Division on Impacts on Agriculture, Forests and Ecosystem Services at Euro-Mediterranean Center on Climate Change (CMCC). He is a graduate in “Cooperation for Rural Development of Developing Countries” in Agriculture Department of Tuscia (Viterbo). Since 2014 he works on research, planning, drafting and evaluation of activities relating agriculture, forestry and climate change. Her expertise is actually focused in the LULUCF sector (Land Use, Land Use Change and Forestry) and currently he is involved in the issues related to reducing emissions from deforestation and degradation (REDD+) with a special focus on drafting feasibility studies on REDD+. He has been actively involved as agronomist in various international cooperation projects of Italian Foreign Ministry. During these projects he contributed to the planning, coordination, monitoring and evaluation of the field activities.
